

BOARD OPERATIONAL GOALS

The Board is responsible to the people, for whose benefit the school district has been established. Further, the Board's current decisions will influence the course of education in the district's schools for years to come. By virtue of this responsibility, the Board and each of its members must look to the future and to the need of all people. This requires long-range planning in addition to attention to immediate problems.

The Board's primary responsibility is to establish those purposes, programs and procedures which will best produce the educational program needed by district students. It is charged with accomplishing this while also being responsible for wise management of resources available to the district. The Board must fulfill these responsibilities by functioning primarily as a legislative body to formulate and adopt policy, be selecting an executive officer to implement policy, and by evaluating the results. Further, it must carry out its functions openly, while seeking the involvement and contributions of public, students, and staff in its decision making process.

The Board will set their goals annually for each school year.
